(54) Title: BOARD GAME

(57) Abstract: A board game simulates a league in which sports teams play matches against one another. The board has a path (10) extending from a start (S) to a finish (F), and players of the game each move a team token along the path (10) according to the throw of a die. The path (10) is divided into pink squares (P), yellow squares (Y), green squares (G), blue squares (B) and red squares (R). Each green square (G) represents a round of matches in the league, whereat the players determine results by the throw of other dice. The other coloured squares present various sport-related hazards such as the issue of yellow or red cards from designated areas (16) and (18). Knockout cup matches may also be played, and players may strengthen their teams by acquiring star players from a pool at areas (20 to 26).
